# Fordson

Shorter hours on the farm

The Fordson saves from thirty to fifty per cent of the

Fewer horses on the farm

-The Fordson does the work of from four to six horses

-One man with a Fordson can do more work easier and with less expense than two men with horses. • More money for the farmer

-A farmer with a Fordson can raise more crops easier and with less expense. He therefore makes more profit.

## Let the Wild Cats Alone!

Every now and then somebody calls to ask for our opinion of some get-richquiek scheme in which he or she has been asked to invest. For several years past the country has been flooded with bonanzas (?), and many people, to their sorrow, have put money into them.

Occasionally some good but misguided man who has alread bought a "wild cat" stock, calls on us seeking information. We like always to be encouraging, but on such occasions we feel very much as we imagine the doctor does who has to tell

his patient the worst. his usual health, but ducting the service. It is for the reason that there are very tacked about midnight bad as well as very good securities that we advise prospective investors in any issue to investigate it thoroughly.
